THE KOHLER ENVIRONMENTAL CENTER is the first teaching, research, and residential environmental center in U.S. secondary education. This LEED-Platinum, net zero energy facility, produced 135 kWh of electricity last year for a net production of 36,860 kWh and composted 20,815 pounds of organic matter from Hill House Dining Hall and 3,098 pounds of organic matter from the KEC kitchen to supply soil-forming mounds for the KEC Sustainable Food Project.

19 STUDENTS GOING GREEN
